PERSONAL.

Miss Amelia Dugan, of Jackson, was visiting in Bolivar last week.

Capt. R. H. Wood returned on Tuesday last, from a visit to relatives in Middle Tennessee.

W. S. Hornsby was in Cairo, last week arranging to receive fresh fish regularly for this market.

S. M. Weatherly, formerly of the Bulletin, but now of Chicago, spent Thursday evening and night visiting the family of J. J. Weatherly, of Bolivar.

Mr. H. Myerheim, alias the "Kid" of that progressive house of Kahn Bros., of Bolivar, was in Union City, a few days of last week, under the treatment of Dr. Edwards, the oculist. He is at his post again.

Dr. W. L. Baird, of Hickory Valley, was in Bolivar on Tuesday, and called on us. Dr. Baird is a good physician, and a clever gentleman, and it is always our pleasure to meet him.

I thank the generous public most sincerely for their kind patronage, in the past, and cordially solicit a continuance of the same. Very Respectfully,
B. V. Hudson.

For cheap heating and cooking stoves and the best tin work for the least money call on John Collins.

Buy Drugs, Paints, Oils, etc., at Hudson's, he sells them cheap.

Neuralgic cure neuralgia and neuralgia or rheumatic pains in head, eyes or limbs. 60 cents at drugstore.

Buy coal oil and kerosene oil at Hudson's. He keeps the best.

Window glass and Putty cheap at Hudson's.

An Old Citizen Speaks.

Mr. J. M. Norris, an old resident of Bolivar, Ga., says, that he had been badly troubled with Kidney Complaint for a great many years and with extreme pain, for three years, at times could scarcely walk and had tried many remedies without benefit, until he began taking Electric Bitters and his head and feet were cured by Bucklen's Arnica Salve. This treatment afforded him great relief and he recommends Electric Bitters to all who suffer with Kidney Complaint, or need a Blood Purifier. Sold by B. V. Hudson.

Much credit is due to the invention of the telephone, telegraph, locomotive, steamship, and the wonderful ocean cable but it is but the truth to say, that for the real benefit to humanity, the discovery of Brown's Iron Tonic tips them all. Thousands cured of rheumatism, biliousness, blood poison, and kidney troubles, know Brown's Iron Tonic is the paragon of medicines. For sale by Savage & Emerson.

Notice.

I have a large stock of Cooking Stoves and Heating Stoves, old style cast iron, new, stamped ware, lamps, barby country hollow ware. I defy competition. Also prepared to do Roofing and gutting at short notice.

J. H. Johnson.

Have your prescriptions filled at Hudson's drug store. The most careful attention will be given them. He has just received a pair of fine prescription scales.

Mr. Saunders, with Doctor C. C. Jackson, Tenn., who had such a bad case of Protruding, that he could not speak above a whisper, and was cured with the Gardner Rogers Cough and Consumption Cure. Says he is satisfied it saved his life. Ask Savage & Emerson for a bottle, it may cure you.

John Collins will put the tin roof on the new residence. He will make a specialty of all tin work.

LOCAL.

Sheriff Yopp, is confined at home sick.

Trade in Bolivar has been dull during the bad weather. The roads of the county are in a bad fix.

The new mayor of Bolivar, is all puffed up, and congratulations are still pouring in upon him.

Several cases of pneumonia are reported from the Boone neighborhood. There have been no deaths reported.

The Opera House is finished all but putting in the curtains, seats, and painting.

If you owe the Bulletin's subscription, come in and pay it, or send us the money.

Rev. R. P. Smith preached to a large and attentive audience at the Cumberland Presbyterian church last Sunday morning and evening.

Dr. B. F. Baird has moved from Hickory Valley to New Castle, where he will engage in the practice of his profession.

We are in receipt of a card from Rev. W. G. Keady, announcing the safe arrival of himself and family, at Cynthia, Ky., their new home.

The Forked Deer Blade killed one of the men who wrote "The Beautiful Snow," last week. We know he is dead if he saw the "Blade."

Mr. C. M. Black has purchased the grocery business of Dr. B. F. Baird, at Hickory Valley, and will continue the business at the same stand.

The members and friends of the Y. M. C. A. are requested to meet at the Cumberland church Tuesday night next to transact very important business.

The contest for the Marshaling of Grand Junction, was interesting. There were only two candidates, and last accounts they had tied in the ballot boxes.

Mr. Cummings, the machinist who assisted in overhauling the Bulletin press at the Machine Works of J. C. Smith, in Jackson, is now with the Sherman Manufacturing Company of that city.

Mr. Charley Gordon, the popular drug salesman, formerly with Moore & Harvey, is now with B. V. Hudson, where he will be glad to meet and serve his friends.

Mr. F. S. Luther formerly of Lake City, Fla., a druggist of several years experience has charge of the prescription department at Savage & Emerson's. Prescriptions carefully compounded at all hours, day or night at their store.

Read the letter to the American from Marietta, Ohio, in another column. The thieves, Moore & Manning, may undertake to operate in this county, and we publish this that our people may be forewarned. They should be arrested and sent to the penitentiary.

Messrs. John R. Godwin of Memphis, A. W. Brockway, of Brownsville and Austin Miller of Bolivar, have been selected as the building committee for the West Tennessee Asylum for the Insane. This is an admirable committee, and one which will see that the work is well and speedily done. No doubt the building committee will commence, at once, to set out shade trees, and build suitable fences, and otherwise beautify the grounds.

Mr. R. Heffli, for many years a popular engineer on the L. & N. R., on this division, was killed by his engine overturning, on the Vicksburg road, on last Friday night. Mr. Heffli was a fine engineer and a clever gentleman, and his death is universally regretted by all who knew him. He was a prominent member of the Knights Templar, the Independent Order Odd Fellows, and the Brotherhood of Locomotive Engineers. He leaves a young wife and two little children, who reside in Jackson.

The County Fair.

In the last issue of the Bulletin we asked the committees on subscription for the County Fair. In the several districts of this county, to wit: as in time for this issue, of the committee subscribed in their districts but we have heard nothing from any of the districts. What the committees are doing we are unable to say, but hope if they have not already canvassed their districts for subscriptions that they will do so at once. This enterprise must not be permitted to fall through, and it will not if we can prevent it. All are fully apprised of its importance, and the time for argument upon that matter is passed. What we need now is for the subscription committees to do their duty by thoroughly canvassing their districts and giving them an opportunity of taking stock. The people will take the stock necessary if the matter is presented to them in its true light, and they are given an opportunity of doing so.

John Collins will put the tin roof on the new residence. He will make a specialty of all tin work.

From Middleton.

MIDDLETON, TENN., Jan. 18, 1886.

A few weeks since, I read in the columns of your paper, the Bulletin where some kind-hearted woman had found a band of mercy. My heart thrilled with pleasure, as I read the names of so many little boys and girls who are willing to pledge themselves to be kind and humane to all of our Heavenly Father's creatures. I wish each one could have seen the exhibit of the Band of Mercy at the World's Fair last spring. It was very attractive, and then they had so many nice tracts and leaflets to give away. Beautiful little illustrated cards, instructive papers, teaching us how and why we should be kind to the dumb animals. They have large societies in several of the large cities. So you see it is no "small thing" to belong to a Band of Mercy.

Now I want to speak a word about another band of boys and girls of all ages and sizes. It is called "Band of Hope," and the pledge is this: "I herby promise, by the help of God, to abstain from the use of all intoxicating liquors, including wine, beer and cider, as a beverage, also tobacco in any of its forms and the use of profane language."

Don't you think any boy or girl that signs this pledge and keeps it to ripe old age will be pure, clean and noble in the sight of all men? For the Band of Hope there are the nicest books, papers, tracts, treating of beer, wine, cider, whiskey, tobacco etc. Also a catechism on the alcohol and beer teaching its effects on the human system, which I think is splendid, all published by the W. C. T. U. board of publication New York and Chicago.

Our W. C. T. U. has taken up juvenile work and we now have a Band of Hope of about 36 members. The children are eager to join and it is such pleasant work to meet twice a month to teach them "Temperance."

Will not some of the Christian women of Bolivar form a Band of Hope at that place? I hope so. Let us make the people intelligent about the nature and effects of all intoxicants upon the moral and physical being of man. Teach it to our children as we would any other science, and the next generation will not see so many drunkards.

Respectfully,
Phyllis Sarker,
President W. C. T. U.

ANOTHER ATTEMPT.

A Black Scoundrel Again Attempts An Outrage.

But the Crisis of the Young Lady Presents a Him Away—The Same of the Crime.

A little after 7 o'clock Friday evening Miss Hatie Withler, a young lady who resides with her mother at 54 Orleans street, but who is employed elsewhere during the day, was returning home, and when within about 30 yards from her own door, she was seized around the waist from behind by a large young negro man, tolerably well dressed, who attempted to throw her to the ground. Miss Withler struggled and turned around, facing her assailant whom she described as a smooth faced, powerfully built man quite black. The young lady screamed, when the negro told her to hush and threw her to the ground, and together they fell into the gutter. The scoundrel placed her head between his knees and started drawing her backwards and drawing her with him. Fortunately her cries were heard and friends coming to the rescue the negro decamped. Miss Withler's cloak and dress were much soiled by mud and her face skinned from the nature of her assault. From the circumstances of the case, there is little doubt, but Miss Withler's assailant is the same negro who was named Miss Taft the previous evening. [Avalanche.]

The young lady mentioned in the above article, together with her mother, lived in Bolivar 8 or 10 years ago, when she was quite a child. Many of our citizens will, no doubt, remember them.

The Hear Presidential Succession Bill is meeting with some opposition from some prominent Republicans in the house. The House Committee have reported favorably on it, and it will become a law.

Obtaining Money by False Pretenses.

MAURITIA, O., Jan. 13, 1886.—There is a party calling themselves on their cards, M. O. & Mann, G. O. Company, Marietta, Ohio going through our State taking orders and collecting in advance, and many are the letters sent to us by the poor dupes inquiring how to get the deal better off, than being such men as Moore & Manning here, and consequently these parties are swindlers. By the roughly ventilating this matter you will save the people of your State's money, and save our State from being a laughing stock to the people of other States, so far as I am concerned. A letter from Jackson, Tenn., wrote me asking about them saying they had taken his money and begged for ten days or so and failed to pay on return. So, I am going to say something to stop this advertising thing, and I will let you know.

Yours truly,
GEO. RICE.

How to Reclaim Old Fields.

Plant them in locust. It matters not how badly washed the field may be they will grow locust trees which in a few years will be worth for fencing purposes many times the value of the land.

Mr. Vance of Giles County, a few years ago planted a worn-out hillside with locust and he expressed the opinion that it yielded a greater profit than any part of his farm.

Mr. P. Alexander, of New Liberty, Ky., has ten acres planted in locust, now ten years old. Not only is the timber worth three as much as the land, but the grazing capacity of the land has been immensely improved.

And advises in the Home and Farm those who have fields washed into innumerable gullies which are year by year growing worse to plant black locust. Level down the hills, the bad place so the teams can cross. Plow down plant in corn early if planted one way set trees in every fifth or sixth row, fifteen feet apart.

The cultivation is not so much for the crop as for the benefit of the young trees. Being planted in the rows with the corn insures their protection from the team and in some degree from the singletree. One difficulty to be found is the trees should be put out as a general thing before corn will do well. Avoid this by taking up the trees and leaving them in near the place where wanted. This will check their growth for a while. Exercise care in taking up and handling. Cut back the tops as you would fruit trees, and for a few years, protect from stock.—[American.]

Eu and to Death.

Greenville, (Tenn.) Bulletin: Saturday night, Miss Alice Lister, a young lady of about 18 years of age who lives with her aged mother about five miles west of Greenville, got up to catch the freight train for the night and by some accident she fell head on into the fire. Her right hand was burned to a fearful extent. The last report we had from her was that her suffering was intense and it was thought she could not live.

Frozen to Death.

Greenville, Tenn. Bulletin: On last Saturday morning it was announced that Rose, a colored woman living on the Ridge one mile east of Greenville had frozen to death. Coroner H. N. Baker summoned a jury and went to the house and found upon examination that the deceased was very low with consumption but that she came to her death by freezing. Her two children who were with her were found almost frozen.

Mississippi Valley Route.

The North, Central and South American Exposition will open in New Orleans, NOVEMBER 10, 1886.

The management report that a more extensive display than last year will be made. Parties who contemplate visiting it, or going to Florida, should ask for tickets over the Louisville, New Orleans & Texas R.

and make a trip through the sugar and rice plantations of the beautiful Mississippi Valley.

For price of tickets to Vicksburg, Baton Rouge, and New Orleans, and all other points reached by this line, apply to:

P. R. ROGERS,
Gen. Trav. Pass. Agt.,
or J. K. NAPP,
Gen. Pass. Agt.,
No. 11 Monroe st.,
Memphis, Tenn.

A Remarkable Case.

Mrs. Henry Ellis, 500 Scott street, Milwaukee, Wisconsin, writes: Dr. S. B. HARTMAN & Co., Columbus, O.: I am induced by a sense of duty to the suffering to make a brief statement of your remarkable cure of myself. I was a most miserable sufferer from the various annoying and distressing diseases of delicate persons, which caused me to be confined to my bed for a long time, and I was even unable to get up for several weeks. I was treated by the most reputable physicians in our city, each and all saying they could do nothing for me. I had given up all hopes of ever being well. In this condition I began to take your MANALIN and PERUNA, and I am most happy to say in three months I was entirely cured, without any appliances or support of any kind.

Mr. G. A. Frost, New Portage, Summit County, Ohio, writes: "My wife has been sick for about five years. In the first place the doctor called it leucorrhoea, and treated it about one year, and she grew worse, and turned to ulceration of the womb, and was treated for that two years, but the worst was the doctor gave her up. Then I employed Dr. Underwood, one of the best doctors of Akron, but under his treatment she grew worse. She was paralyzed; she had lost all of the sense of feeling and her eyesight. She could not walk for nearly two years. About six months ago Underwood gave her up. She tried your PERUNA. She has taken three bottles, and it did more good than any other medicine. The paralysis has almost left her; her eyesight is getting better. We will continue the use of PERUNA until she is well."

Mr. Isaac Nicodemus, Schellberg, Bedford County, Pa., writes: "I am induced by a sense of duty to the suffering to make a brief statement of your remarkable cure of myself. I was a most miserable sufferer from the various annoying and distressing diseases of delicate persons, which caused me to be confined to my bed for a long time, and I was even unable to get up for several weeks. She could not walk for nearly two years. About six months ago Underwood gave her up. She tried your PERUNA. She has taken three bottles, and it did more good than any other medicine. The paralysis has almost left her; her eyesight is getting better. We will continue the use of PERUNA until she is well."

Mr. Isaac Nicodemus, Schellberg, Bedford County, Pa., writes: "I am induced by a sense of duty to the suffering to make a brief statement of your remarkable cure of myself. I was a most miserable sufferer from the various annoying and distressing diseases of delicate persons, which caused me to be confined to my bed for a long time, and I was even unable to get up for several weeks. I was treated by the most reputable physicians in our city, each and all saying they could do nothing for me. I had given up all hopes of ever being well. In this condition I began to take your MANALIN and PERUNA, and I am most happy to say in three months I was entirely cured, without any appliances or support of any kind."

Mr. G. A. Frost, New Portage, Summit County, Ohio, writes: "My wife has been sick for about five years. In the first place the doctor called it leucorrhoea, and treated it about one year, and she grew worse, and turned to ulceration of the womb, and was treated for that two years, but the worst was the doctor gave her up. Then I employed Dr. Underwood, one of the best doctors of Akron, but under his treatment she grew worse. She was paralyzed; she had lost all of the sense of feeling and her eyesight. She could not walk for nearly two years. About six months ago Underwood gave her up. She tried your PERUNA. She has taken three bottles, and it did more good than any other medicine. The paralysis has almost left her; her eyesight is getting better. We will continue the use of PERUNA until she is well."
